Mercury is located in the town of Elm Grove – a near west suburb of Milwaukee (10 miles from downtown) and just an hour north of Chicago. We have chosen to be in a location where we can stay focused on what we do best – integrated marketing and communications – not deal with a lot of daily traffic jams.

Our offices are located in Reinders' Mill Place, an Elm Grove landmark that has a long, rich history in the Milwaukee area. Mercury created a space that breathes new life into the mill while maintaining its architectural integrity and significance.
